

Solar Drain Clip

SPECIFICATIONS

The solar drain clip is a solar panel accessory designed to divert water and accumulated dirt away from the panel and onto the ground. This device clips onto the solar panel frame to remain in place and draws water away from the solar panel allowing the water to drain. This keeps the solar panel clean which is key for optimum performance. Made of two pieces that ratchet for adjustability, this device adapts to different solar panel frame heights ranging from 25mm to 45mm. These mounts are manufactured from Acetal material for durability and long life suitable for outdoor use.

Solar Drain Clip

USDC-C130:	100 pcs package
USDC-Q130:	200 pcs package

TECHNICAL INFORMATION

Part Number:	USDC-C130, USDC-Q130
Mount material:	Acetal
Color:	Black
Temperature range:	-20°F to 158°F (-29°C to 70°C)
Package:	USDC-C130: 100pcs/Carton USDC-Q130: 25pcs/Box, 200pcs/Carton
Weight:	USDC-C130: 0.7kg/Carton USDC-Q130: 0.25kg/Box 1.5kg/Carton

KEY FEATURES AND BENEFITS

Adjustable mount design:	Adjustable design can be adapted to the thickness can be adjusted between 25~45mm, to adapt to different manufacturers of different specifications of solar panels.
UV resistance:	Specialty material formulations provide UV protection that can guarantee a 20-year product life, UL1581/720H.
Repeatable design:	Repeatable installation, correctly removed and reinstalled will not affect product performance.

APPLICATIONS

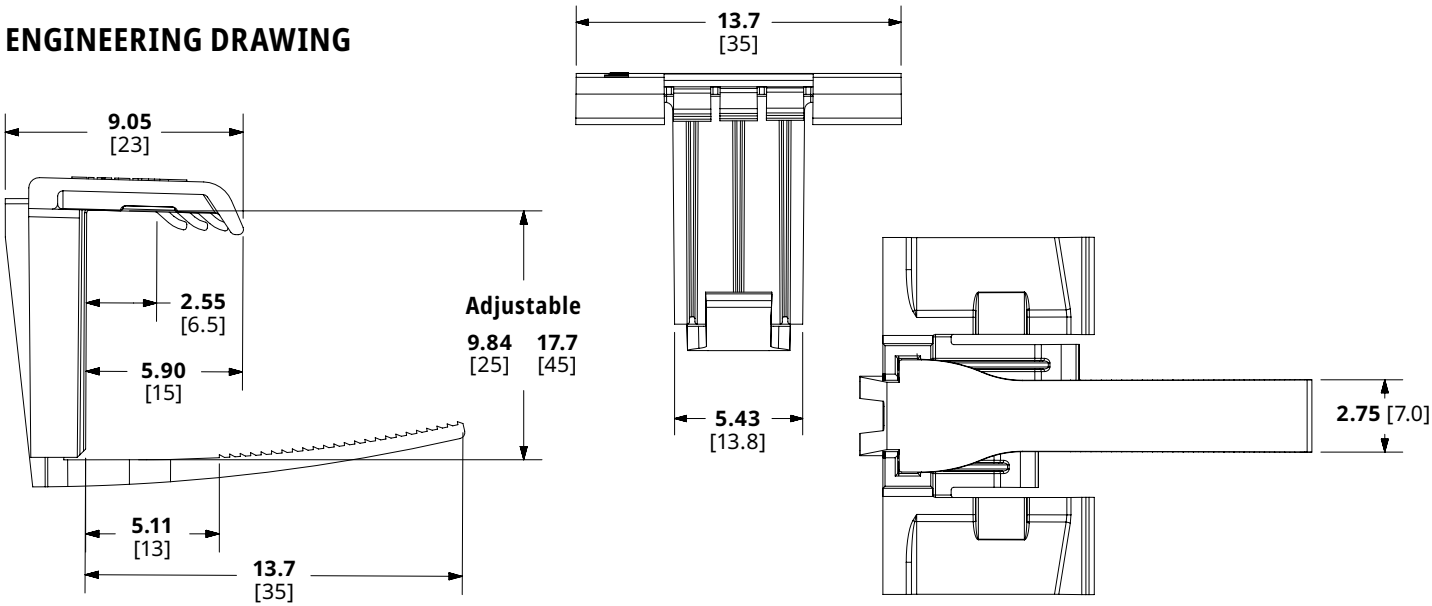

Solar panels are used outdoors for long periods of time, which causes a lot of dust to build up. Rain also causes a lot of moisture to build up around the edges of the panels. The Solar Drain Clip is designed to be installed on the underside of the panel so that mud and water can be drained away from the edges of the panel when it rains. Improves panel efficiency and increases panel reliability.
